 Nursing Home Visits
 Confirmation and Service Projects
 Mystery Trip
 Graduation Celebrations

Of the many amenities offered at Christ, Prince of Peace, we are especially proud of our middle school wing devoted to our older students. Among the outstanding features are a dedicated science lab, computer lab, music room, library, and art room. Foreign language is required of all middle school students. We offer a challenging curriculum resulting in test scores above the Archdiocese averages; our students not only are accepted into the high schools of their choice, but also excelling in these schools. We are first, and foremost, Catholic, and your child will be immersed in his/her faith while being part of the Christ, Prince of Peace Family.
